

2019-2020 Percent Change Report

SUMMARY

The Percent Change Report represents the net percentage of Clark County School District (CCSD) enrolled students, geographically assigned by each secondary school, who attend a non-assigned CCSD school. Due to the magnitude of school choice options available in CCSD this report is all-inclusive with respect to situation. The percent change includes students leaving the assigned school attendance zone due to any of the following: Board-approved zoning options, magnet or select school enrollment, Open Enrollment choice options, special education program placement, Zone Variance, or CCSD Administrative placement.

A negative percentage indicates more students leave the attendance zone than are coming in from out of the zone. A positive percentage signifies a greater number of students attending than are geographically assigned in the attendance zone. The one exception would be students attending a magnet program from out of zone. Magnet program seat counts are a set number and are not determined by a fluctuating percentage. Therefore, these are not calculated in the percentage for out of zone magnet school students.
