## EVALUATE SCENARIO(S) FOR FOCUS AREA E1 FOR ELEMENTARY SCHOOLS.

William Elementary Schools. Rick also provided the commission with the Residential Development Tracking Report for Jan Jones Blackhurst Elementary School.

Albert Delgado asked Sheri Garbiso for the development numbers for Scenario 4. He also requested a confirmation from Ray Negrete that Scenario 3 would eliminate a bus route.

Ray Negrete stated that it would eliminate one route in that area.

Ray Negrete replied that it would.

Sheri Garbiso stated that the development numbers for Scenario 4 put 411 active housing units in the new school and 233 active housing units in Wright Elementary School. The approximate student yield for the new school would be 71 and for Wright Elementary School would be 41.

## EVALUATE SCENARIO(S) FOR FOCUS AREA E2 FOR ELEMENTARY SCHOOLS.

Rick Baldwin presented and explained Focus Area E2, Scenarios 1 and 2 to evaluate the existing attendance boundaries of Frank Lamping, Neil C. Twitchell, John C. Vanderburg, and Elise L. Wolff Elementary Schools. Rick explained that Scenario 1 reassigns students from Wolff Elementary School to Lamping Elementary School. He stated that Scenario 2 mirrors Scenario 1 with the exception that it considers reassigning students from Vanderburg and Twitchell Elementary Schools.

Michael Greene, parent, Vanderburg Elementary School, stated that he has lived close to Vanderburg Elementary School for 15 years. He moved to the area intentionally so that his child can attend Vanderburg Elementary School. Mr. Greene expressed his concerns of the possible opening of another elementary school in the area that will mean rezoning for his student.

Cecilia Formisano, parent, Vanderburg Elementary School, echoed Mr. Greene's concerns. She also stated that rezoning of the feeder schools would affect the middle school that her child is assigned to.

Lani Benoit, parent, Vanderburg Elementary School, stated she would be excited about rezoning to Lamping Elementary School, she wanted to know if those children will be grandfathered in.

Heidi Kabler, parent, Vanderburg Elementary School, stated she would not be affected by the change, but was curious for the students that would be, wanted to know if the commission would consider asking for volunteers to be rezoned.

Laura Paszek, parent, Vanderburg Elementary School, stated her main concern was if the older students could be grandfathered in. She expressed concern over the feeder school.

Kelli Beck, parent, Vanderburg Elementary School, also requested that older students get grandfathered in.

Dan Taylor, parent, Vanderburg Elementary School, stated that a lot of parents moved into the Vanderburg's zone because of that school. He said that rezoning would be an issue for students that have a hard time coping with change.

Rebecca Cluff, parent, Vanderburg Elementary School, asked if the school board would consider having Vanderburg and Twitchell Elementary Schools not share the same zone and that the zone be split in half.

Raul Meza, parent, Vanderburg Elementary School, stated that his family moved to the Vanderburg's zone so that his students could go there. He said that other families have invested a lot to live in that area. Mr. Meza said that the community is very active in school activities.

Myra Taylor, parent, Vanderburg Elementary School, said that her student is in Kindergarten. She is concerned that if he is rezoned that he would have high anxiety. Her family moved to the area so that her child could attend Vanderburg Elementary School. She is very active in the school and would like the rezoning issue to be reconsidered.

Kristin Stelter, parent, Vanderburg Elementary School, said that she has been living in the Vanderburg's zone for 10 years. She stated that her children love the school and that the community is very involved in school activities. She asked that the commission reconsider the rezoning.

Heather Gould, parent, Vanderburg Elementary School, said that the Sun City, a community that is 55 and older, is included in the rezoning. She stated there is a catholic school that is going to be built in that area and that should be taken into consideration as well.

Stephanie Johnson, parent, Vanderburg Elementary School, said that her family moved to the area so that her children would be zoned for Vanderburg Elementary School. She stated that Vanderburg Elementary School is a huge part of their community and requested that the rezoning be reconsidered.

Maria Davis, parent, Twitchell Elementary School, is a real estate agent and lives in this area. Her children are zoned for Twitchell Elementary School. She is concerned about the property values changing according to which schools they are zoned for. She requested that the commission reconsider the rezoning since busy families have a lot of money invested in that area.

Diane Salas, parent, Twitchell Elementary School, stated that her family moved to this area because they would be zoned for Twitchell Elementary School. Both of her children thrived at this school. She is requesting that rezoning not take place.

Ray Schuth, parent, Twitchell Elementary School, stated that he has 2 children that attend Twitchell Elementary School. He asked that students be grandfathered in. Mr. Schuth feels that the suggestion of Vanderburg and Twitchell Elementary Schools being separated is a strong option.

Justin Hepworth thanked the parents for attending, speaking, and encouraged them to keep coming to the meetings. Justin stated that regarding elementary schools grandfathering, it is virtually impossible to do. He stated that open enrollment may be an option. The concern is to make sure that the schools are utilized to the best capacity. Justin stated that without Mallory Levins being present at this meeting he would like to hold off in making a motion.

#### EVALUATE SCENARIO(S) FOR FOCUS AREA M2 FOR MIDDLE/JUNIOR HIGH SCHOOLS.

Rick Baldwin presented scenarios to evaluate the existing attendance boundaries of Lyal Burkholder Middle School and Barbara and Hank Greenspun Junior High School. This scenario would provide feeder school alignment between elementary school to middle/junior high school.

Justin Hepworth stated that the scenario was created, just like Rick had stated, to create feeder school alignment. That is why there is no other scenario for this area.
